

# Transforming Mental Health Services

## ***San Joaquin County MHSa Planning Community Meetings***

On

### **Community Services and Supports (CSS)**

In November 2004 voters passed Proposition 63, the Mental Health Services Act (MHSa), intended to transform public mental health care for children, youth, adults and seniors. MHSa provides funding for improvements in Community Services and Supports (CSS).

The County's CSS 2005 plan focused on addressing and reducing disparities of access to mental health services for underserved ethnic communities within the County. As we begin the planning process for the 2009 – 2010 CSS annual update we will acknowledge the accomplishments of the current services and evaluate the challenges still facing San Joaquin County.

*We are counting on your voice to help guide us!*

We are in the planning stage of this process and believe you have valuable insight to contribute. Help us create a plan that will respond to the needs of our community.

### **Community Conference – Please join us!**
